

# Status Quo, Over And Done

(Lancaster)

I really didn't wanna break it, you know I'm sorry its over and done  
I really thought we would have made it but now its gone  
Can you look into my eyes and tell me that there's nothing wrong  
I know you know it's not the same, it's not the same old song  
It's over and over and over, I told you it's over and done

None of us are getting younger and we all want to be a millionaire  
And when you stop to think about it, it seems unfair  
But if you never stop to think at all you'd never be aware  
And never understand the meaning of the love we share  
It's over and over, I told you it's over, it's only fair  
Oh it's over and over, I told you it's over and done

It's no good trying to make it better, you know it doesn't feel right to do  
Everything we shared together would break in two  
Can you hear what I've been trying to say? I wouldn't do you wrong  
We've got to get it over now and learn to carry on  
It's over and over and over, I told you it's over and done  
It's over and over and over, I told you it's over and done  
Oh it's over and over, I told you it's over and done
