

# Status Quo, Someone Show Me Home

(Rossi/Frost)

Down by the side of the hotel all-nighter  
Is your old grey door  
Men gather round with the fear that a lawman  
Will come to clean up the floor  
One a week it all begins  
10:15 for sure

Smoke fills the room, they arrive in a hurry  
Bring the tears to my eyes

Someone show me outta here  
Someone show me home  
Someone show me, I can't stay  
To see you act that way

Out on the street people moving in closer  
I take the lift nineteen floors  
Right to the top to the edge set for falling  
I look down to see you there

Someone show me outta here  
Someone show me home  
Someone show me, I can't stay  
To see you act that way

Someone show me outta here  
Someone show me home  
Someone show me, I can't stay  
To see you act that way
