## Status Quo, Take Me Away

(Parfitt/Bown)

Charter me something, even a bike Get me away from here Buy me some transport and spend what you like Just get me away from here Something to take me away Take me away I'm shaking, breaking Get me outta here

Build me a coffin and measure me now Or get me away from here I know I'm not ready to end it somehow Get me away from here Something to take me away Take me away I'm shaking, breaking Get me outta here

Take me away, take me away I'm shaking, breaking Get me outta here

A mental disorder, a physical wreck Get me away from here The glamorous life is a pain in the neck Get me away from here Take me away, take me away I'm shaking, breaking Get me outta here
