

# Status Quo, Temporary Friend

Where can I go? Who can I find to talk to?  
Boy, do I know it don't look so bright to me  
Because I'm heading down the road, carrying the load on my shoulders  
Passing time away, drinking through the day alone

How could I know 'cos you never show your feelings  
Why did you go? Why d'ya walk out on me?  
I couldn't see the cards that you were dealing  
It's you I can't shake, i just gotta break your spell

Because I'm looking for the cover of a temporary friend  
Oh I don't want to be ..... and a-lonely again  
Oh I'm a-heading for the gutter and I'm close to the end  
Because I'm looking for the cover of a temporary friend

You gotta see, you gotta see my meaning  
How can I survive? I'm out here on my own  
You gotta give, give me something to believe in  
Somebody to love, somebody to take me home

Because I'm looking for the cover of a temporary friend  
Oh I don't want to be ..... and a-lonely again  
Oh I'm a-heading for the gutter and I'm close to the end  
Because I'm looking for the cover of a temporary friend

Because I'm looking for the cover of a temporary friend  
Oh I don't want to be ..... and a-lonely again  
Oh I'm a-heading for the gutter and I'm close to the end  
Because I'm looking for the cover of a temporary friend  
Because I'm looking for the cover of a temporary friend
