

Steel Train, Black Eye

Black eye

You show me in a painting of buildings in chrome
Don't take that pill and I'll take you home
Oh I said come on and realize one day you're gonna die

Break free

We'll be back before the weekday, your dad'll never know
That you took the pill and I saw the road
When the chemicals are in, I said one day you're gonna die

Go on

Well I got a miracle and you wanna know why
You were a home and I am on fire
When the chemicals are in, I said one day you're gonna die

Black eye, you hit

Black eye, on me

You said that

I am your trampoline

I am your trampoline

You show me in a painting of buildings in chrome

Don't take that pill cuz I'll take you home

Oh I said come on and realize that we can never die

Black eye, you hit

Black eye, on me

Take the pill and I'll watch you sleep

Drive all night and you let me freeze

I am your trampoline
