

# Stefy, Love You To Death

No one else will even know how to love me  
Maybe I am broken  
Deep inside I believe that you belong to me  
But this remains unspoken

And I want you so much  
You not like the rest  
It hurts when we touch  
I love you to death

I can't breathe  
and I can't sleep  
it's killing me  
I love you to death  
I can't be saved  
the price I pay when you're away  
I love you to death

Late at night when I'm alone your memories haunting  
don't you miss me too?  
and sometimes i think if i wish hard enough  
i could be with you

And I want you so much  
You not like the rest  
It hurts when we touch  
I love you to death

I can't breathe  
and I can't sleep  
it's killing me  
I love you to death  
I can't be saved  
the price I pay when you're away  
I love you to

I'm stranded without love  
but you still thrill me  
if you leave me long enough  
it might just kill me

I can't breathe  
and I can't sleep  
it's killing me  
I love you to death  
I can't be saved  
the price I pay when you're away  
I love you to death

And I want you so much

It hurts when we touch

I love you to death
