

Stellar Kart, I'm Pretty Good

Im pretty good at this
and not so great at that
Ive tried my best
To be the best at
What Im trying at
Its never good enough to
Give me all I need I know
The here and now cant match
Whats waiting there for me

[chorus]

All that I know for sure
Is that theres so
Much more if I could step
Outside this ordinary life
Find what Im living for
Theres so much more
I thought I had it all until
I watched me fall

Now Im left wishing I could
Find out whats missing
I need a love that lasts
Regardless of my past
A chance Ill take on you
A hope of finding something true
