

Stellar Kart, Letters

Far from home you find me
Amidst the lost and dying
Nothing's fair in love and war
Worlds apart in desperation
Please erase this separation
Only you are worth fighting for
There's love in every letter written
A hope that gets me through the day
Forever is never too long to wait
Some day soon we'll be together
Where a moment lasts forever
And our love shines brighter than the stars
Until then I will remember
Every word and every letter
The promises you've written on my heart
I see the darkness blinding
And all that's left are my dreams
To save me from the night
Your words of hope remind me
Somewhere the sun is shining
Don't give up the fight
