Stellar*, You

When you're gone I'll be better off
Alone
I tell myself that I don't need anybody
Else
You're unaware the fool in me still
Cares
For that fool in you

I've figured out what the fuss is all
About
The trail you leave was still enough
To make me grieve
Still unaware the fool in me cares
For that fool in

You

Nobody I need
Nobody I don't care bout you
