

# Stephanie Dosen, Only Getting Better

I'm just getting up  
Sun it makes my blood shot  
Open arms, hands and shaking hearts  
The world is gonna turn.

And it's oh, so beautiful  
And it's oh, so beautiful  
Take a lookin' round, round  
Cause it's only getting better  
Its only getting better now my love  
And it's only getting better  
Its only getting better now my love  
My love, better all the time  
Even now my love

Friends are all here now  
And everyone is here with  
Open arms, hands and shaking hearts  
The world is gonna turn

And it's oh, so beautiful  
And it's oh, so beautiful  
Take a lookin' round, round  
Cause it's only getting better  
Its only getting better now my love  
And it's only getting better  
Its only getting better now my love  
And it's only getting better  
Its only getting better now my love  
My love, better all the time  
Even now my love, my love  
Better all the time
