## Stephen Malkmus, Baby C'mon

With a thousand tiny terrors No more weekend shares Make it get away Baby come on

If you give it to me timmy I'm out here on a limb-y I don't need hideaways Baby come on

well, half-way through my life I flipped on internal bitch so Tell it to me straight Baby come on

And i know that the shapes are great So i won't hesitate To leave it at the door Baby come on

I see you're under my diamond I see you driving the winter shell

So you say that you're too old to yell But too young for hell It's not far away Baby come on

If a life of tears cuts you down You can sit around I won't make you stay Baby, come on

I see your lovely traffic pose I see you're trailing what you're good for

Baby come on Baby come on Baby come on, let me come

Baby come on Baby come on Baby come on
