

# Steppenwolf, Tighten Up Your Wig

What can you see with your ear on the ground  
Try to lift up your feet, girl, and take a look around  
Let me see your eyes girl  
We've got to make them big  
If you'd like to see the truth  
I better tighten up your wig

Your mind is too narrow, and it's no surprise  
If you fell on a pin, well, you'd be blind in both eyes  
Oh, let me see your head, girl, we've got to make it big  
Until your ears come apart, I better tighten up your wig

Watch out for the lunch bunch, they'll try to bring you down  
Don't get hung up in the shower, baby, you might drown  
Oh yeah, oh, your head looks kinda big  
Before I loose you mind, girl, I better tighten up your wig

Just before we go, I'd like to mention Junior Wells  
We stole his thing from him, and he from someone else  
Oh, yeah, yeah, yeah, yeah, he plays the blues like few before  
May he play forevermore
