

Steps, Experienced

She was older
Older by years she was
All I've been dreaming of
Sure
Sure and so confident
She must have been heaven-sent

she looked at me smiling
Breathing and sighing
And I felt like crying
She said boy, you can stay with me through the night
You know I loved that woman outa sight

Everybody needs someone
To show them how
Even though her touch
Is just a memory now
I won't forget that moment
I lost my innocence
The day I became
Experienced

Heaven don't
Heaven don't make mistakes
A lesson is all it takes

From the beginning
She did the teaching
And I was so willing
Sharing the feelings
Of love that way
I'm never gonna forget that day

Everybody needs someone
To show them how
Even though her touch
Is just a memory now
I won't forget that moment
I lost my innocence
The day I became
Experienced

I won't forget that moment
I lost my innocence
the day I became
Experienced

Everybody needs someone
To show them how
Even though her touch
Is just a memory now
I won't forget that moment
I lost my innocence
The day I became
Experienced
