

# Steps, Words Of Wisdom

I thought that we were set for life  
We'd be together man and wife  
But all the plans I made for us have changed  
I thought I could decide for you  
Everything that we would do  
I wish I could've bit my tongue  
But I kept going on and on

Words of wisdom  
Everyone offers me  
Words of wisdom  
Now I can see that it's easy on the outside to give out advice  
And now you're gone I can recognise  
What I put you through  
With those words of wisdom  
I gave to you

Everybody's telling me (Everybody's telling me)  
It clearly wasn't meant to be  
But they don't know how much I hurt you  
I was wrong  
Now I realise I'm being wise (So wise)  
Doesn't always mean to criticise  
And by driving your love away  
I know now what not to say

Words of wisdom  
Everyone offers me  
Words of wisdom  
Now I can see that it's easy on the outside  
Then to give out advise  
And now you're gone I can recognise  
What I put you through  
With those words of wisdom  
I gave to you

They tell me how life goes on  
And I gotta be strong  
But I don't wanna be looked upon  
As someone who really needs...

Words of wisdom  
Everyone offers me  
Words of wisdom  
Now I can see that it's easy on the outside  
Then to give out advise  
And now you're gone I can recognise  
What I put you through  
With those words of wisdom  
I gave to you

I gave to you  
(Words of wisdom)  
I gave to you  
(Words of wisdom)  
I gave to you  
(Words of wisdom)
