

# Stereo 360, Beautiful

(Hills/Galdames 4:00)

I wish I was you  
I'm so in love with you  
I'll sit here patiently and wait  
For you

There's all the beautiful people  
There's all the beautiful people  
Then there's you

I wish you could see  
The way that you look at me  
Let's teach our children not to hate  
Only Love Love Love

Do do do  
Do all the beautiful people  
Do all the beautiful people  
Look like you

With all this Love around me  
You're all so beautiful  
All this Love surrounds me  
And it's so good to be me  
I'm more than what you see  
I could fly high again

I've lost a dream  
I dream of you  
Thoughts of you don't leave  
They never do

Do do do  
Do all the beautiful people  
Do all the beautiful people  
Look like you

All around us are broken dreams  
You fall apart and it's at the seams  
You run around and there are no sides  
There are no sides because of broken signs  
And there's no where to go

Run if they've got a gun  
Run if you see it coming  
Run if they've got a gun  
Run if you see them coming  
Run if they've got a gun  
You might not see it coming  
Run if they've got a gun  
Run if you see them coming  
Run if they've got a gun  
Run if you see it coming  
Run if they've got a gun  
You might not see it coming
