Stereophonics, Girl

I've seen the one To take my eye She's my Sunday best

She'll blow my mind Rob me blind Then she'll take the rest

Another drink In ya sink Down a drunken well

Chasing stars
Catching cars
To the moon again

Girl you got me going Don't you wanna fly? High!

Mirror face To her place Head's a hazy mess

Falling down Look a clown Jekyll's out again

Feeling sick Lunatic Beat myself up well

Call the cars
Fuck the stars
Get me down from hell

Girl you got me going Don't you wanna fly? High!
