

Steve Aoki & Felix Jaehn, Cant Go Home Like This

Can't go home tonight 'til I work it out with you
Standing on the edge of something we can't afford to lose

Say you wanna, wanna leave
Got my heart on a string behind you
We're a lock without a key, out a key
And I'm just trying to get through
When the bed's half-made and the light's blown out
We can build our fate over hollow ground
Open up the cage, let the birds fly out
Cause we can't go home... like this!

Cause we can't go home like this

I wanna fall down the kaleidoscope with you
We gotta fix up the hearts we broke, before we do

Say you wanna, wanna leave
Well I'm just trying to get through
When the bed's half-made and the light's blown out
We can build our fate over hollow ground
Open up the cage, let the birds fly out
Cause we can't go home like this
No, we can't go home like this
No, we can't go home like this

Not like this
Can't go home like this
