

# Steve Cole, Serenity

As I sit here and slowly close my eyes  
I take another deep breath  
And feel the wind pass through my body  
I'm the one in your soul  
Reflecting inner light  
Protect the ones who hold you  
Cradling your inner child

I need serenity  
In a place where I can hide  
I need serenity  
Nothing changes, days go by

Where do we go when we just don't know  
And how do we relight the flame when it's cold  
Why do we dream when our thoughts mean nothing  
And when will we learn to control

Tragic visions slowly stole my life  
Tore away everything  
Cheating me out of my time

I'm the one who loves you  
No matter wrong or right  
And every day I hold you  
I hold you with my inner child

I need serenity  
In a place where I can hide  
I need serenity  
Nothing changes, days go by

Where do we go when we just don't know  
And how do we relight the flame when it's cold  
Why do we dream when our thoughts mean nothing  
And when will we learn to control

Where do we go when we just don't know  
And how do we relight the flame when it's cold  
Why do we dream when our thoughts mean nothing  
And when will we learn to control

I need serenity [x2]
