

Steve Earle & The Dukes, Come Home To Me

Yellow moon, amber light
Baby, baby, baby, please come home to me
Another blue and lonesome night
Baby, baby, baby, please come home to me

I knew I'd cry, when you were gone
Baby, baby, baby please come home to me
Thought I'd survive but I was wrong
Baby, baby, baby, please

Just as soon as you were out that door
I remembered what my life was like before
Now nothin's gonna be the same again
'Cause I'm lonelier than I was then
And I can't ever let this feelin' go
'Cause now I know

I stay up late wake up alone
Aw baby, baby, baby please come home to me

No matter what I say or do
I know I'll never get over losin' you
So I'm crossin' my heart and promisin'
If I get you in my arms again
I'm not ever gonna let you go
'Cause now I know

The doors unlocked
The light is on
Baby, baby, baby, please come home to me
Baby, baby, baby, please
