

# Steve Earle & The Dukes, Come Home To Me

Yellow moon, amber light  
Baby, baby, baby, please come home to me  
Another blue and lonesome night  
Baby, baby, baby, please come home to me

I knew I'd cry, when you were gone  
Baby, baby, baby please come home to me  
Thought I'd survive but I was wrong  
Baby, baby, baby, please

Just as soon as you were out that door  
I remembered what my life was like before  
Now nothin's gonna be the same again  
'Cause I'm lonelier than I was then  
And I can't ever let this feelin' go  
'Cause now I know

I stay up late wake up alone  
Aw baby, baby, baby please come home to me

No matter what I say or do  
I know I'll never get over losin' you  
So I'm crossin' my heart and promisin'  
If I get you in my arms again  
I'm not ever gonna let you go  
'Cause now I know

The doors unlocked  
The light is on  
Baby, baby, baby, please come home to me  
Baby, baby, baby, please
