

Steve Earle & The Dukes, Here I Am

Here I Am
On my way
Down another road I've have paved
With every good intention I've saved
And hearts that I broke
As for me I got scars
For every mile I've traveled so far
And some blood on my hands
Here I am
With a song in my heart
And an attitude from the start
I took everybody apart
To see how they work
I got friends that I owe
I ain't namin' names
Cuz they know where they stand
Here I am

Here I am
Here I am
Here I am

If I went back where I've been
And I knew what I know now then
Well I'd probably do it again
Cuz I'm just a man
At the end of the day
I ain't got nothing to say

Here I am
Here I am
Here I am

Here I am
Here I am
Here I am
