

Steve Earle & The Dukes, Satellite Radio

Satellite Radio

Turn it on

Top of my shift-frog in my throat-sleep in my eyes
Startin to drift-cuppa hot joe--checkin the sky
Never can tell-makin my list-checkin it twice
Fasten my belt- flippin my switch-checkin my mic

Is there anybody out there? One-two-three on the satellite radio?
Big daddy on the air, are you listenin to me? On the satellite radio
At the galaxy's end where the stars burn bright are you tunin in and turnin on?
Is there anybody listenin to earth tonight on the satellite radio?

Listen to the radio

Listen to the radio

Turn it on

Turn it up

What if they're right? What if I'm wrong? What if we're kings?
One of these nights-play the right song-telephone rings
Stone in the sea-shot in the dark-splittin the air
Listen to me-kindle the spark-answer my prayer

Is there anybody out there? One-two-three on the satellite radio?
Does anybody care, are you listenin to me? On the satellite radio
At the galaxy's end where the stars burn bright are you tunin in and turnin on?
Is there anybody listenin to us tonight on the satellite radio?
