

Steve Earle & The Dukes, While You Sleep

(never released by steve - recorded by charlie sexton)

Girl there's no moon out tonight
Just your window light
The night hides nothing you should fear
'cause I stand guard out there

Every day I look away when we meet
Every night I'm walking up and down your street
I'm standin' here outside your window
It's drivin' me mad, I can't let go

You'll never even see
This lonely watch I keep

While you sleep

Girl, don't ever think your dreams
Are private as they seem
'cause I know every move you made
From midnight 'till you wake
While you sleep

Every day I look away when we meet
Every night I'm walking up and down your street
I'm standin' here outside your window
It's drivin' me mad, I can't let go
