

Steve Hackett, Don't Fall

Fascinating, Captain!

When I come in from the cold
I need somebody to hold
Sometimes it's the price you pay
Feels so good I can't say

Don't fall in love with me
I'm gonna hurt you can't you see?
Don't fall in love with me
It was never meant to be

Better stop wearin' that frown
Johnny comes marchin' into town
You can squeeze the trigger on my gun
Not to close, start to run!

Don't fall in love with me
I'm gonna hurt you can't you see?
Don't fall in love with me
It was never meant to be

[Repeat chorus through fade]
