

# Steve Kilbey, The Neverness Hoax

Have I told you 'bout the neverness hoax  
A vile trick perpetrated on you innocent folks  
Was it in the fall of '93  
During the rise of the galaxy  
A tiny shift in our trajectory  
A little more substance to the unimaginary

(and you smile) the neverness hoax

The confederation was in disgrace  
They jettisoned their rubbish into inner space  
Sweet toxic love all over the place  
Cupid's agent off his face

Have I told you 'bout the neverness hoax  
Religion to many, to others the butt of their jokes  
There came a disturbance in the indian sea  
Something in the depths, a monstrosity  
An invisible woman kept a file on me  
Trying to seduce my immediacy

The mechanical royalties will never recover  
The pleasure back from her animal lover  
The futures slide back one after another  
And wouldn't you know it, it's the people that suffer  
From the neverness hoax
