Steve Lukather, Darkest Night Of The Year

I feel a change coming over me
It seems I felt this way before
I sense the sound your eyes won't let you see
I can't take it anymore

Crashing windows, crash
Laughing voices, keep on laughing,
Oh, oh, oh
Stop for a minute

Chorus:
I chase the shadows and light
To a palce no one knows
I hear the screams of the wind
And I know it's the
Darkest night of the year

Can't tell the dreams from reality
My fears are one and the same
So who made me part of destiny

Who made me part of their game
Can't you feel it hurt
Too much pain to endure
Stop for a minute

(chorus)

Cold wind on my skin
Is the pain that I feel when you're near
It's a midnight street
Where we'll meet
And we'll run from the
Darkest night of the year

Crashing windows, crash
Laughing voices, keep on laughing,
Oh, oh, oh
Stop for a minute

(chorus)
