

Steve Miller Band, Lost In Your Eyes

(Leo Sidran)

So you found someone
You found some heartache
You found some fun
You had some give and take
You had a friend
You had a fight
You saw it end
And then you're up all night

Have you seen the way she walks
The way she smiles at me
Laugh a while and talk a lot
And you're beginning to see

That you get lost in her eyes
She takes you away
You start to talk
And time it flies
She takes you away

She takes her time and leads you on
And then she lets you go
Time to time she'll lead you on
And then she'll let you know

Then you get lost in her eyes
She takes you away
You start to talk
And time it flies
She takes you away

Then you get lost in her eyes
She takes you away
You start to talk
And time it flies
She takes you away

You found someone
You found some heartache
You found some fun
You had some give and take
You had a friend
You had a fight
You saw it end
But that's alright

Have you seen the way she walks
The way she smiles at me
Laugh a while and talk a lot
And you're beginning to see

That you get lost in her eyes
She takes you away
You start to talk
And time it flies
She takes you away
