

# Steve Vai, In My Dreams With You

I'm watchin' you  
I'm wantin' you  
But you turn away  
I'd crawl through broken glass to you  
But it wouldn't pay  
You take me for a fool  
But if you only knew  
What I do in my dreams with you  
You're so cold and critical  
And baby that's too bad  
So my reality will have to come to me in my dreams  
I know that you belong to me every night  
You suddenly appear in my eyes  
It happens when I sleep  
It isn't right  
What I do in my dreams with you  
I love the way you come to me every night  
My fantasies are real and they never lie  
If you only knew  
What I do in my dreams with you yeah  
It isn't right  
Lord knows that it isn't right  
The world can make you cynical  
With all its love and pain  
But I don't have to carry  
The weight of the world  
(Chorus)  
Baby don't wake me  
Let me take you on an endless journey  
We touch  
And the softest kiss explodes with lust  
It's real  
And you can't deny the heat you feel  
And if I die before I wake baby that's all right  
(Chorus)
