

# Steve Wariner, If You Don't Know By Now

(Rick Carnes/Janice Carnes/Steve Wariner)

We've talked it out for hours and you're still havin' doubts  
Shouldn't love be somethin' you don't have to figure out  
How can I ever know just where we are  
If you can't tell me what is in your heart.

If you don't know by now  
How could tomorrow ever change the way that you feel  
If you don't know by now  
I guess you never will.

Never had to question that I loved you I just knew  
Guess I took for granted that you loved me too  
You say you don't know if your love is real  
And you need some time to find out what you feel.

If you don't know by now  
How could tomorrow ever change the way that you feel  
If you don't know by now  
I guess you never will.

There are just some things forever can not do  
Like make you love me the way that I love you.

If you don't know by now  
How could tomorrow ever change the way that you feel  
If you don't know by now  
I guess you never will.

I guess you never will...
