

Steve Winwood, Angel Of Mercy

Every little thing that can go wrong
Don't you know I realize
All the trouble that goes on so long
Restoration of it seems so wise
But when the hope and the love has gone
You're the one the world is searching for
Hold on for the way gets clear
For your love, for our love
That's what I'm saying
Angel of mercy,
Won't you stay with me, won't you stay with me?
Take a little water to cool you down
Reach out to your furthest dream
If you find that you've been turned around
Get back up and try again
Though your future's not plain
Your effort's not in vain
For we are in need of
Your sweet touch - please be near us
When the sun turns to rain
Then our loss can be gain
If you could reach out
Take my hand, yeah
