

# Steve Winwood, Lord Of The Street

When the night comes rollin' and the day is through  
Then I come strollin' down that avenue  
Baby, I got what no one can give you - all my lovin'  
All the guys wanna get down with you  
But there ain't no one that's got my rhythm  
Cos I'm the lord of the street, no one can compete with my love for you  
Said I'm the lord of the street, you got the kinda heat brings me close to you  
Oh, I can't get enough of it, let me dance for you  
When I start movin' you'll be dancing too  
You and I gonna rock together, our hearts are burning  
We'll take on all kinds of weather  
Girl, this night's gonna last forever  
The power to love someone up above is good to me  
He's got the kinda love the helps me to see
