

Steven Wilson, The Harmony Codex

Steven Wilson prezentuje utwór "The Harmony Codex" z płyty "The Harmony Codex" (premiera 29

It seems I'm miles above the surface of the earth

I can see across the whole of London and beyond

Lights from a thousand cities

Towering buildings in far off places

Ships and thunderstorms at sea and beyond

A trillion stars in a billion galaxies

I gaze out across the millennia it took the light from these
stars to reach the earth

I close my eyes

And breathe

I came here searching for something

But I don't remember what that thing is anymore

Did I dream you?

Or are you dreaming me now?

As your waking thoughts gradually take over

As all dreams are ultimately forgotten

And lost...
