

Steven Wilson, What Life Brings

Steven Wilson prezentuje utwór "What Life Brings" z płyty "The Harmony Codex" (premiera 29 wrz

Were you standing in the haze?
The oscillating sunset fades
In the Autumn past
Knowing it won't last
Gone but that's just too bad
Cos that's what life brings

Were you a bird that fell to earth?
Or just a tremor in my nerves?
That will soon pass on
When the shadows grow long
There's no need to be strong
When you're lost in dream fog

Were you standing in the haze?
The oscillating sunset fades
In the Autumn past
Knowing it won't last
Gone but that's just too bad
Cos that's what life brings

Love it all
Love it all and hold it in your hands
