

# Still Remains, Anemia In Your Sheets

Found in your sheets, dead in your sleep  
I watch you drain as you're reaching for me  
No photographs left in the path  
No one will ask...where you've gone

Covered under rain and thunder  
Wash away the stains that I've created

And I feel your heartbeat fail...

Oh, I am your worst nightmare  
"...your worst nightmare, your worst nightmare..."

Oh, I am your worst nightmare

No one will hear you scream  
No one will hear you scream

Found in your sheets, dead in your sleep  
I watch you drain as you're reaching for me  
No photographs left in the path  
No one will ask...where you've gone

Covered under rain and thunder  
Wash away the stains that I've created

Oh, I am your worst nightmare  
"...your worst nightmare, your worst nightmare..."

Oh, I am your worst nightmare
