

# Still Remains, In Place Of Hope

Farewell

Parting is such sweet sorrow

It's time to go now & I don't know if there will be tomorrow

It's her time to be the best she'll be forever, when she feels it

The pain she couldn't avoid... If only she could breath

Let the little child run away

Let the little child fly away

I wish I could kiss her cheek & tell her that I love her

It's not realistic in this life but maybe the other

I know these secrets

Might you have been my blood relation?

I will always think of you

I can't wait to meet you face to face

Face... to... face

She's been waiting for so long, but she'll always be gone

Let the little child run away

Let the little child fly away
