

Stone Sour, Freeze Dry Seal

My face is horrid and Im constantly slouching
My place is lower and Im constantly crouching
I dont believe it I saw the man again
And he wont hear a word I say

I have delusions so Im constantly shouting
I have compulsions so Im constantly counting
I dont believe it there goes my world again
And I dont understand a word I say

Just because Im paranoid it doesnt mean Im annoyed and
Just because Im not prepared doesnt mean Im not aware

The smoke is infinite - Im constantly panting
The truth is imminent Im constantly shouting
I dont believe it I took a chance again and
People I dont know wont let it go

Ive got some problems Im constantly bitching
Ive got some rashes Im constantly itching
I dont believe it forgot the pills again
I just woke up a million miles from home

Just because I seem sedate it doesnt mean Im not irate and
Just because Im not immune it doesnt mean Im not scared of you

Just because Im incomplete it doesnt mean Im obsolete and
Just because Im out of view doesnt mean Im not like you
