

Stone Sour, Fruitcake

Got a pit in so tight wish I never had a blast that night,
I can hear them through the walls for me
Try to run but they always find me
All in all, this is all I can take when I fell it was my first mistake, but
Broken-hearted musta wilted, cuz everythings all tilted

I keep a little place in the back of my mind
I take a little trip when they use up my line
But as soon as I can, Ill find another reason again

Hang around like a head on a leash keep it all just a little out of arms reach
I can hear them through the walls for me
Now I know why I cant go in all the blurs have a different set of keys again, but
Broken-hearted musta wilted coz everythings all tiled

I keep a little place in the back of my mind
I take a little trip when they use up my line
But as soon as I can, Ill find another reason again

Oh yeah, keep a little place in the back of my mind
Take a little trip when they use up my line
But as soon as I can, Ill find another reason again

Oh you dont wanna hurt me
You Dont Wanna Hurt Me
YOU DONT WANNA HURT ME ANYMORE
Bring it on, one more time

[Solo Jim]

Im the one with the skeleton face Im the one with the full nine disgrace
I can hear them through the walls for me
Try to run but they always find me
I never wanted it to end this way I wish I had a little more to say, but
Broken-hearted musta wilted cuz everythings all tiled

I keep a little place in the back of my mind
I take a little trip when they use up my line
But as soon as I can, Ill find another reason again

Oh yeah, keep a little place in the back of my mind
Take a little trip when they use up my line
But as soon as I can, Ill find another reason again

Oh you dont wanna hurt me
You Dont Wanna Hurt Me
YOU DONT WANNA HURT ME ANYMORE
Bring it on, one more time
Take it away, oh take it away again
