

# Stone Sour, Reborn&nbsp;

I am walking through your streets  
I am looking in your windows  
I am elemental now  
You'll never even know I'm there

I am watching over you  
I am living in the shadows  
I am just a word to you, but I am very real and cold  
Cold to all of this  
Cold to how you feel  
Cold to all your loose reason

I am everything  
I am anything  
I am automatic  
I am yesterday  
I am everyday  
I am gonna be...

Yeah

I am all there is to know  
I am all that you've forgotten  
I am enigmatic now  
You never even knew my name  
I am dressed in tragedy  
I am by design immortal  
I am just the last one left but I am always here and old

Old and very strong  
Old as all you feel  
Old as all the world around you

Yeah

I am everything  
I am anything  
I am automatic  
I am yesterday  
I am everyday  
I am gonna be...Reborn  
(This is the start of something)
