

# Stonewall Jackson, I'll Go Get The Tool Box

I sat there with my teardrops showing just the way I felt  
Looking at the emptiness the one I love had left  
My little boy said daddy mama's left us all alone  
I'll go get the tool box and you can fix our broken home  
You can fix our broken home daddy I just know you can  
I watched you fix my wagon and now the wheels are tight again  
Things will turn out alright daddy don't you cry cause mama's gone  
I'll go get the tool box and you can fix our broken home  
[ steel ]  
You should have heard my tiny boy for courage in this man  
The courage to repair our shattered world now right again  
Thanks to him I found her his words pushed me along  
I'll go get the tool box and you can fix our broken home  
You can fix our broken home...
