Stonewall Jackson, Step Aside

Angray words were spoken and I left my baby in a cloud of gloom Got into my car and drove around until I spurted this saloon Came inside and bought a drink then I saw you and felt a burning glow Got the urge to hold you tight but if I try refuse me tell me know Step aside if I try to get near you lock your heart if I start making time Walk away if I say that I need you step aside if I step out of line I steel I

Bitter is my feeling for my baby and the things she said so cruel Half of me says cheat on her but part of me says stop don't be a fool Don't let me get close to you cause if I do I won't be very strong Save me from my conscience and keep me from being sorry later on Step aside if I try...

Step aside if I step out of line
