

Strange Celebrity, Rise

Did you hear me when I called
Down here on this dark road alone
The moon is bright but there's no light
To light my way
Looking down over the edge again
Where I can see what I have done
And I'm guilty but I won't be
Because of you

(Chorus)

When I fall you catch me
When I'm down I reach for you
From the ashes you save me
And I rise to be with you
Floating underneath your wings
I can see it all so clearly
When I have nothing you give everything to me

(Bridge)

Shine your light on me
Come and set me free
Take it all from me so I can rise
