

# Strangelove, Fire (Show Me Light)

What am I  
Surely not this awkward frame  
that carries me round  
Not part of emptiness that's still to be found  
I want to know  
Thoughts rain down  
World spins round  
Upside down  
As my confusion grows  
Who are you  
You look the same but you are different again  
With all your questioning that makes me insane  
I need to know  
Thoughts won't clear  
Caught down here  
End seems near  
As my vagueness grows  
I need to know  
Give me the direction of a river that flows  
Cutting through the land of misconception I've known  
Clarify the meaning that I once saw in the sky  
Show me light  
Clap the dance that circles through  
All the thoughts I ever knew  
A step for me a step for you  
Truth  
Smoke shall twist beyond my trying eyes  
Through a fire rest my place inside  
Pondering the night with shapes  
Rhyme  
What am I  
Just another dreamer with sun in his eyes  
Another pointless being who was trapped in time  
Show me light  
Who are you  
You hide yourselves away the same as I  
We carry on this game of shameful lies  
Shown as night  
Thoughts won't clear  
Caught down here  
End seems near  
I need more, I need more  
Give me the direction of a falling star  
It shoots away the permanence  
I've known so far  
Clarify the meaning of the words up in the sky  
Show me light
