

Strangelove, Sixer

I find it difficult to think
When I'm shaking this much
Why don't you try to understand
If you understand so much
I've been awake
I've been awake for so long
And the man in the moon
Has got it in for me
He's been a-messing with my mind
I've been a-messing with my own mind
Here comes the next line
I don't want to die
Waiting for the next line
Still don't want to die
Over it's over
No more
Never again<P. invention
Has got it in for me
They've been a-listening in
OPO-radio listening in
I'm still awake
I'm still awake after so long
