## Strangelove, Someday Soon

Shut up

You're way down boring

All you got are modern stories

All about the money rolling

And your crank possession holdings

Back off

You don't know me

I don't care for modern talking

You just don't wanna buy me baby

And I think you're a cockroach for trying

Someday

Someday soon

Life's gonna catch up

On you

Someday soon

Someday

Someday soon

It's all gonna crash down

On you

Someday soon

But your money won't see you through

Gonna lose it all

Gonna lose it all

It's coming soon

Someday soon

Hands off

You don't impress me

Neither do your jewels undress me

Or your car to drive me home

As your diamond studded clown

Back off

You don't get me

Neither does your gold possess me

You just don't wanna buy me baby

Take me around on a lead

Someday

Someday soon

Life's gonna catch up

On you

Someday soon

Someday

Someday soon

It's all gonna crash down

On you

Someday soon

But your money won't see you through

Gonna lose it all

Gonna lose it all

It's coming soon

Someday soon

You're gonna lose it all

Gonna lose it all

It's coming soon

Someday soon
