

Strapping Young Lad, Detox

I've got a feeling
With the wrong people
And I can't control my thoughts
I wish that I could sleep
And just get this over with
...this is only high-school bullshit...
I just want to feel...
I was warned...
Absolutely numb
No good around people
Everyone knows, and watches me
How did I get here tonight?
What am I doing here?
How did I reach this state?
How did I lose my sight?
I'm lost... I'm freaking
And everybody knows... Everyone's watching
...so here's all my hopes and aspirations
Nothing but puke
God, it's so lonely
I just want to feel...
