

# Stratovarius, Rise Above It

Scam is the way  
How they play  
How they make their move  
Damned everyday  
What they say  
How they forge our truth

We've seen it all so many times before  
Make a stand, their demands don't matter anymore

Uprising, uniting, all those who fear no more  
Confusing, misleading, media's hard to read

What is real, what's the deal  
Is it all done in the name of greed

What we feel is right and true  
What we have is still  
Inside our burning heart  
Not torn apart, now we need to  
Rise above it  
They can write another lie  
They can try to make us weaker  
We won't bend, fight 'til the end  
We won't yield  
We'll rise above it

What they write isn't right  
It doesn't matter if it serves the plan  
Don't believe what you see  
Just try to understand

We've seen it all so many times before  
Make a stand, their demands don't matter anymore

What we feel is right and true  
What we have is still  
Inside our burning heart  
Not torn apart, now we need to  
Rise above it  
They can write another lie  
They can try to make us weaker  
We won't bend, fight 'til the end  
We won't yield  
We'll rise above it

What we feel is right and true  
What we have is still  
Inside our burning heart  
Not torn apart, now we need to  
Rise above it  
They can write another lie  
They can try to make us weaker  
We won't bend, fight 'til the end  
We won't yield  
We'll rise above it

We'll deny their every lie  
And we, we'll rise above it  
We won't bend, we won't yield  
They'll see we'll rise above it!  
We are free, you and me  
And we, we'll rise above it  
We won't bend, we won't yield

They'll see
