

# Stratovarius, Twiling Time

Danger zone  
I look into the mirror see my face again  
I hear myself preaching  
You are getting bold  
Growing old  
Skin turns cold  
You're to blame  
But I will find the way to be myself again  
I break the mirror with a noise  
Stop preaching me teaching me  
leave me be  
There's no way to stop me now  
My end is in sight  
I reach for the light  
Tonight  
Twilight time  
It's twilight time  
Reaching for a morning light  
Twilight time
