

Stretch Armstrong, Parasite Complex

Take a look at this life and pick apart all that you find.
Throw caution to the wind because there's no use in being kind [2xs]
dissect all that you encounter.
Spread the lies that you have created.
Disregard fact and speculation because they've never been related.
Its a one person show and the world is your stage so don't let truth get in the way.
Who said it was right and who said it was ok?
why do you want to invade my space and make me fell like i'm the one who is out of place
. The journey will be long,
but its time well spent.
Think of the people you'll crush when this comes to an end.
Feeding on.
Leeching on.
Holding on.
You can't let go. [2xs]
