## Subhumans, Killing

You-You're driving me insane But you know there's something wrong with my brain My head is really in a whirl You look just like a normal girl (Chorus:) But you don't really care It happens everywhere You don't give a shit Forget about it I was living in a plastic bag I didn't know what to do I didn't know she was a slag Well what would you do? (Chorus) Ì didn't know I killed her I was out of my mind She only wanted my money But she made me blind (Chorus)
