Subhumans, Killing

You-You're driving me insane
But you know there's something wrong with my brain
My head is really in a whirl
You look just like a normal girl
(Chorus:)
But you don't really care
It happens everywhere
You don't give a shit
Forget about it
I was living in a plastic bag
I didn't know what to do
I didn't know she was a slag
Well what would you do?
(Chorus)
I didn't know I killed her
I was out of my mind
She only wanted my money
But she made me blind
(Chorus)
